

PANELMATE® POWER PRO™ 3000 TECHNICAL SPECIFICATIONS

Total control — with just a touch. The PanelMate Power Pro 3000 gives you the ability to monitor, operate and troubleshoot PLC- or soft logic-based machines easily and cost-effectively by using the very latest in operator interface technology. Available with an ultrabright, 350-nit, 10.4" color TFT flat panel display, PanelMate Power Pro 3000 units come in your choice of two design options — traditional keypad with membrane TouchPanel™ and control buttons or direct touchscreen.

PanelMate Power Pro 3000 units are compatible with all major brands of PLCs and industrial communication networks such as DeviceNet,™ Allen-Bradley Data Highway Plus and Modicon Modbus Plus. PanelMate Power Pro 3000 units use intuitive Windows®-based software that makes configuring quick and easy with fill-in-the-blank templates, and tag name management tools. Advanced graphics capabilities provide high-detail, realistic representations of your machine, resulting in faster operator acceptance and utilization.

All of which means PanelMate Power Pro 3000 units give you one of the easiest to learn, fastest to use, and most comprehensive operator interface product lines available.
